

**SIGN THE PETITION.
INSIST ON PROTECTION.**

DID YOU KNOW

- That high levels of mould have been detected in this building?
- That problems with mould may have persisted for years?
- That there have been repeated incidents of flooding?
- That mould in the workplace can be a health hazard, especially for people with underlying health conditions?

WHAT CAN YOU DO?

GOA members

Please contact us at mould.melcor@aupe.org if you have had problems because of mould or are worried about your health.

AHS members

If you have had problems because of mould or are worried about your health, please report this to the AHS MySafetyNet and email us at mould.melcor@aupe.org.

All employees in the building

Sign the petition at www.aupe.org/Melcor/petition and call on our employers to act now. We are insisting that the Government of Alberta (GOA) and Alberta Health Services (AHS) release a timeline for moving staff exposed to mould out of the Melcor building and then move them promptly.
