Candidate for Edmonton City Council Ward tastawiyiniwak

1. As a councilor I will do everything in my capacity to oppose public services from going private. I will work towards making privatized services public or ensuring that there is accountability for those services.
2. As a councilor I believe in a healthy work/life balance. I will ensure that I and the city are equitable when hiring staff. I will work with the admin to ensure we reach as many communities as possible when showcasing jobs.
3. As a councilor I will oppose any attempts from the provincial government to legislate against municipal staff.
4. The City of Edmonton needs to find new avenues of revenues to deal with shortfall instead of increasing property taxes and making cuts to services.
5. I strongly support the mask and vaccine mandate If the province is not taking the leadership.
6. I support creating a city that is inclusive, accessible and affordable but not at the cost of service cuts or increased taxes.
