

**Harman Singh Kandola responses**  
**Candidate for Edmonton City Council Ward Sspomitapi**

1. I oppose privatization of municipal services and infrastructure P3s. Previously privatized services should be brought in house when possible.
2. Public employees should have living wages and collective bargaining rights.
3. I oppose attempts by the provincial government to limit the right to strike.
4. 40% of Municipal taxes go to the province. I will fight for a fair deal for Edmonton, as this money should come back to the city rather than cuts to basic services.
5. I support the mask mandate and requirement for city employees to be vaccinated.
6. The city should have decreased reliance on regressive fees.
