

**Haruun Ali responses**  
**Candidate for Edmonton City Council Ward papastew**

1. I oppose the privatization of any municipal services. I highly prefer all municipal services remain public. I would also support bringing services like transit cleaning that have been privatized back to the public sector. It is important for the city to look into other areas in which we can expand this scope and ensure that we are protecting good paying union jobs.
2. Yes. I will ensure that our city employs every single employee with a living wage, full time hours (where desired), job security, and collective bargaining rights!
3. I will oppose any attempts from the provincial government to prevent strikes from happening and cutting the pension plan. I will stand up to Premier Jason Kenney and I will fight back against any attempts to stop workers from unionizing and striking.
4. If the choice is between cutting taxes and cutting worker's jobs, I would choose increasing taxes. I will never push to layoff or cut good paying union jobs. I will push for us as a City to get a better funding deal from the province and ensure that we are growing the pot rather than trying to save money which often leads to problems down the road.
5. Yes. I support COVID restrictions, mask mandates, vaccine passports and vaccine mandates for public workers to ensure and help reduce the spread of COVID-19 in Edmonton.
6. I am the only candidate in papastew with a plan to eliminate transit fees and to push for more services to not rely on user fees but rather to work together to afford things together. I am also the only candidate in papastew pushing for recreational centres to be free for students one day a week!
