

Ilja Kraemer responses
Candidate for Coaldale Town Council

I hope my response answers your survey.

We are in a pandemic world right now and need to work together to get through this.

If elected I want to hear from all sides and listen. I mean really listen. We all want job security and a decent wage. There are many people who have lost their livelihoods, businesses, jobs, or even hours cut. I would like to work to attract family friendly businesses and activities, which could in return create jobs and work for all people.

I would like to rebuild communication between residents, town and council. Using common sense to spending on projects, look at opportunities to combat crime in our community. I would also support a mask mandate put in place.

Thank you for the opportunity to respond to some of your questions and concerns.
