

Kaitlin Chamberlain responses
Candidate for Cochrane Town Council

- 1) yes I'll oppose
- 2) yes of course
- 3) yes I'll oppose
- 4) I am all about reviewing budgets and making sure proposals are presented in full to disclose all costs. Cochrane alberta has a very low non residential tax rate I believe these need to be increased. And I dont favor either.
- 5) I support mask mandates, passports but not mandatory vaccines because I dont cherry pick the fact that people have a right to do what they want with their body (just like with abortions). I am double vaccinated and I do believe folks should get the vaccine.
- 6) hadn't thought of this before but yes i would support measures to reduce reliance.
