

## **Rick Sakundiak responses**

### **Candidate for Grande Prairie and District Catholic School Trustee Ward 1**

1. I Think we should either revise the new curriculum or we can scrap it and start all over if needed.
2. I believe the current funding formula works well in our area.
3. I will oppose privatization of school services and infrastructure, including the P3's. I may support bringing privatized services in house.
4. I will try to support employees and my community by ensuring the school board employs staff with proper wages, full-time hours where needed and job security, also a collective bargaining agreement if needed.
5. I will try to oppose attempts from the provincial government to legislate against school staff including cuts to the Local Authorities Pension Plan.
6. I sport masks in our schools. And as far as I know legislation hasn't changed. Everybody still has the right to choose whether they want to get vaccinated or not. I am vaccinated.
