Hi

My name is Sana Kakar, I am running for Edmonton City Council Ward Karhiio here are my responses for your survey

1. Will you oppose privatization of municipal services and infrastructure, including Public-PrivatePartnerships aka P3s? Will you support bringing previously privatized services in-house?

**Yes, I will oppose privatization of municipal services and infrastructure, Regarding bringing previously privatized service in-house I would like to see what is in the best interest of the people and for sure I'll support the services which are in the best interest of the people to be brought back.**

2. Will you support your employees and your community by ensuring the municipality employs staff with living wages, full-time hours where desired, job security, and collective bargaining rights?  
3. Will you oppose attempts from the provincial government to legislate against municipal staff including cuts to the Local Authorities Pension Plan, or restrictions on their right to strike?

**Yes I'll support.**

4. How do you propose your municipality deal with funding shortfalls, cuts, and downloading of responsibilities from federal and provincial governments? Do you favour spending cuts over tax increases?

**I don't favour tax increases. I would like to find more sources of revenue for the city.**

5. Do you support measures such as mask mandates, vaccine "passports", and vaccine mandates for staff to limit and reduce the spread of COVID-19 in your municipality?

**Yes I support**

6. Do you support measures to reduce municipal reliance on services fees and fares, such as eliminating transit fares?

**Affordable transit is very important for cities and the environment, for people to use Transit it is necessary that transit is efficient and easily accessible. It's my plan to improve the transit system for edmontonians.**

Thanks

Sana Kakar
