AUPE Environmental Committee Eco-Star Award 2024 Nominations Open

Nominate an AUPE environmental champion by August 15

The Environmental Committee is calling for nominations for this year's Eco-Star Award honouring a member that has led or contributed to environmental initiatives in their workplace or their greater communities.

Deadline for nominations is August 15, 2024.

When nominating a member please consider the following:

- Did the member introduce or champion environmental initiatives in their worksites, their communities or at various levels of government or non-governmental agencies?
- Was this an environmental educational initiative?
- Are these issues/campaigns with a high level of environmental recognition/exposure?
- Do actions of the nominee (of an environmental nature) directly affect our members and our worksites?
- Does this involve environmental campaigns that have the greatest impact for our members (to educate, activate, or the greatest reduction in carbon footprint, or greatest increase in reduce/reuse/recycle)?

Nominations will be reviewed by the AUPE Environmental Committee, and the winner will be notified once a selection is made.

Nominate your comrade at <https://www.aupe.org/ecostaraward>
