

Alberta families NEED change

“...we are *not* making changes to services for children with disabilities...”

MINISTER Jason Nixon
Seniors, Community & Social Services

12,000 vulnerable families are still waiting for help from Family Support for Children with Disabilities (FSCD) and Persons with Developmental Disabilities (PDD) programs.
WE NEED CHANGE – Albertans with disabilities deserve access to these services!

Alberta families often wait 18 months or more for access to FSCD and PDD programs.
WE NEED CHANGE – Every day counts for families that need support!

Staff working in FSCD and PDD programs are struggling with double the normal caseloads.
WE NEED CHANGE – Give the FSCD and PDD programs the resources to bring caseload rates to normal levels!

The Alberta Government refuses to hire more staff.
WE NEED CHANGE – Hire more full-time caseworkers and reduce the wait times for access to the FSCD and PDD programs.

The Alberta Government must hire more staff and end the unacceptable wait times for Albertans in need. Our most vulnerable citizens deserve access to these vital programs and resources.

Please contact Jason Nixon, Minister of Senior, Community and Social Services to tell him to end the hiring freeze and let Alberta families get the help they desperately need.
